AUCTION: [John J. Ford, Jr. Part XVIII & Henry Leon Sales](#)
LOT #: [42](#) [Watch Item](#)
ITEM: Hudson's Bay Company Medal, n.d. [1820]. Silver. Very Fine.

GRADE:
STARTING BID: \$6,000.00

CURRENT BID:
HIGH BIDDER#:
LIVE BIDDING: Tuesday, May 22, 2007 3:12:18 PM

STARTS IN *: 16d 3h 50m

*"Live Bidding" and "Starts In" times are approximate.

Description

Hudson's Bay Company Medal, n.d. [1820]. Silver. Very Fine.

Jam. fig. 20. Bust of George III left with small C.H.K. signature (Obverse 1, the die of BHM 991 and 1062); antique arms of the Company (Reverse A). 47.9 mm. 974.2 gns. Mount after the fashion of the earlier royal First Peoples' medals, unlike the Jamieson plate example, but apparently original. Reverse break present as on all seen. Medium silver gray with some peripheral toning. Heavy obverse scratches. Light rim marks, edge cuts from the loop, one edge flaw. **Very rare:** there may be fewer than 10 of these in private collections. The last sold was a piece catalogued as Choice Uncirculated in the March 15, 2001 LaRiviere auction. That example showed the reverse break as both of Mr. Ford's silvers and all his coppers and paper impressions. It sold for \$6,612 and had, incorrectly, been called a "Taylor restrike" by its 1989 Glendining's catalogue. The Don Stewart Collection silver specimen was offered in the late Jeffrey Hoare's February 25, 1994 TOREX sale as lot 589. Described as Very Fine but without a loop, it was estimated at the time at Can\$ 20,000. The catalogue cannot remember another recent sale of a silver Hudson's Bay medal and the only other example that comes to mind is the 1925 Wilson Sale piece (lot 942). The Glenbow Museum has the Jamieson plate specimen in silver and there is a handful in private collections.

Ex Fred Baldwin on June 24, 1965

Description

Hudson's Bay Company Medal, n.d. [1820]. Silver. Very Good to Fine.

Jam. fig. 20. Bust of George III left with small C.H.K. signature (Obverse 1, the die of BHM 991 and 1062); antique arms of the Company (Reverse A). 48.0 mm. 942.9 gns. Holed, without loop. Reverse break present as on all seen. Lighter silver gray in color. Deep gouge in left obverse field. Surfaces quite rough nearly everywhere. Attempted hole to the left of the original one. This has the look of an awarded medal. **Very rare** as noted with probably fewer than 10 of these held privately.

Ex Robert Brule, date unrecorded, said ex C.A. Laframboise Collection.
